Designing AI Products That Keep the Thinking Where It Belongs

MICHAEL D. LAPICO

The second book in the series: a practical guide for product teams building AI features that keep the thinking — and the capability it builds — with the people who use them.

BUILT ON CAPABLY HUMAN™'S OPEN RESEARCH

- *The Capability Fitness Framework* (CH-F-001): Defining a New Framework for Human Capability in the Age of Artificial Intelligence
- *The Capability Model* (CH-M-001): A Working Model of the Human Capabilities That Matter in an AI-Enabled World

ALSO IN THE SERIES

- *Heavy Lifting: Capability Fitness in the Age of Thinking Machines* (Book 1)
